

CARE THROUGH TECHNOLOGY

"care through technology"

PharmEvo is committed to play an active role in the academic and professional development of medical fraternity.

It has a unique tradition of creating win-win partnerships with Doctors, Healthcare Organizations and Medical Institutions by offering them diverse value added services.

"Our dream, a healthier society"

Embracing technology proactively and creating value in the "Digital Health" space with an innovative mindset, PharmEvo has remained instrumental in changing the way healthcare is delivered and how capacity building of healthcare professionals is carried out.

**Syed Jamshed
Ahmed**
Deputy CEO
PharmEvo (Pvt) Ltd.

We are pleased to present this menu of our digital health solutions & projects, from the CSR platform of PharmEvo, that provide a good example of how the power of digital medium can be harnessed to create value in healthcare for both physicians and patients.

3-D printing, Driverless cars & a lot more unthinkable inventions have come of age & exciting new digital capabilities powered by the Internet of Things (IOT) are already lined up to amaze the world.

I thank and appreciate all the Physicians who are utilizing these digital health solutions and hope that we work together for the improvement of healthcare in Pakistan

**Dr. Muhammad Mansoor
Khan**
Director Commercial
PharmEvo (Pvt) Ltd.

Healthcare is going through a paradigm shift mainly due to advancements in technology. With the emergence of "google Drs & google Patients", Telemedicine, wearable & connected medical devices, portals & apps, the conventional Dr-Pt interaction & relationship has disrupted & transformed in an unprecedented manner where only information moves.

The "Digital Health' era has allowed us to witness the dream of providing healthcare to 'anyone – anywhere – anytime'.

PharmEvo, having its own dream of "building a healthier society", brings this revolution of Digital Health to the physicians of Pakistan.

Connecting Doctors & Patients Virtually

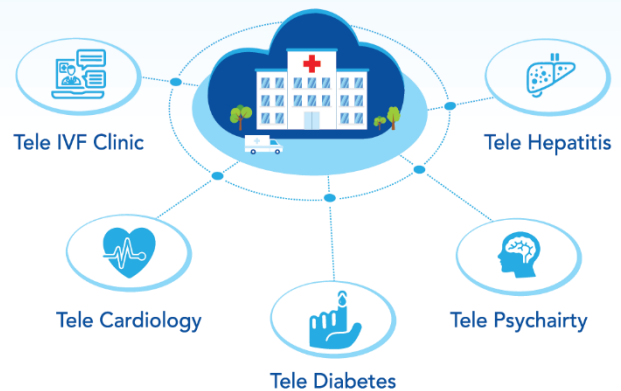

"care through technology"

A cloud based telemedicine portal where doctors create their "virtual clinic" & see patients from anywhere in the world. This web based portal allows doctors to evaluate, diagnose, treat and educate patients virtually using technology

Features

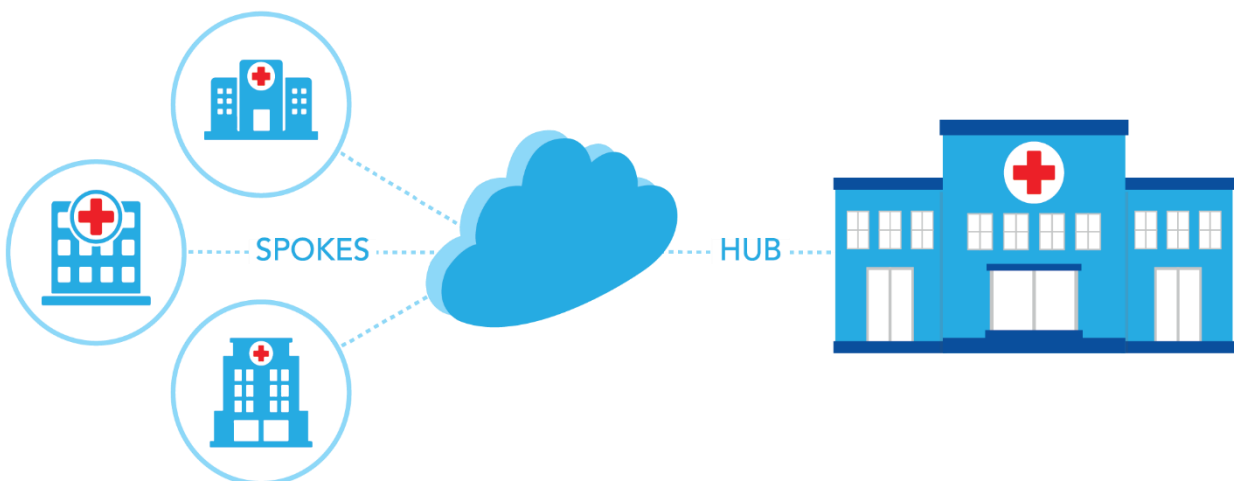

- Cloud Based
- Private & Secure Consultations
- Integrated Electronic Medical Record (EMR)
- Easy Two-Way Live Video Consultation Between Doctor and Patient
- Patient Education Tools

VIRTUAL HOSPITAL

HUB & SPOKE MODEL

A larger specialist hospital (Hub) is connected to multiple smaller hospitals/clinics (Spokes) to provide telemedicine/teleconsultation services. This is a facility-to-facility based model.

A WEBINAR AND VIRTUAL MEDICAL MEETING PORTAL

PharmEvo Medweb is a state of the art webinar portal which allows speakers to deliver presentations/lectures online to an audience comprising of individuals and groups from anywhere in the world.

Now, with PharmEvo Medweb, Position yourself uniquely thereby gaining the differentiation as a medical expert among your peers.

WEBINAR FEATURES

Here are just some of the things you can do on PharmEvo Medweb:

Display slides: You can display a slideshow presentation using MS PowerPoint, just like you would in a regular classroom, meeting room or lecture hall.

Stream video: Show a video either stored on your computer or found online, such as on [YouTube](#).

Interact with your audience: PharmEvoMedWeb Webinar platform provides facility of distance-teaching with two way engagement tools.

Record everything: Webinars provide an option for the host to record their entire presentation-including all audio visual (AV).

Edit: The host can use their mouse to create annotations, highlight things or create markings on the screen.

Chat: The host can open up a chat box to text chat with the audience, which is especially helpful for audience wanting to ask questions.
