

فائٹس

Ingredients:

Each 5ml contains:

Ivy leaf Extract.....	35mg
Thyme Extract.....	20mg
Cisti Extract.....	75mg

PHYTUS® Syrup is a herbal medicinal product for administration in cases of Flu, Cough & Cold. The administration of this herbal medicinal product in the mentioned therapeutic indications is based exclusively on long-lasting experience.

Ivy leaves – Expectorant with secretolytic activity including inflammatory bronchial diseases.

Thyme – Expectorant with secretolytic activity as well as mucolytic activity on upper respiratory tract, bronchial catarrh and supportive treatment of whooping cough.

Cisti – Immunostimulant including Common cold & cough.

The Monographs of WHO, ESCOP and EMEA have data evaluations related on quality, pharmacology / clinical experiences and warnings of the plant drugs. These monographs provide the descriptions of indications and effects of PHYTUS® syrup.

How does PHYTUS® syrup work?

The powerful and natural agents ivy, thyme and cisti effectively support the natural healing of the body. Ivy aids thick mucus to become liquefied however thyme helps the respiratory tracts to be less constricted considerably and cisti works as an immunostimulant for cold & cough. As a result PHYTUS® syrup helps to relieve cough and considerably improves breathing. Through the liquidation of mucus and the easier cleaning of respiratory tracts, the urge to cough is reduced. Unpleasant production of thick mucus and the sticky throat sensation will be considerably reduced hence easier breathing and an overall better wellbeing is ensured.

PHYTUS® syrup therefore helps the body to heal itself and combats the typical complaints of dry and productive cough associated with common - difficulty in breathing and the urge to cough.

Indications:

- Antitussive
- Expectorant
- Bronchodilating
- Common cold

Cough is a distressing symptom in many respiratory conditions. It is a normal reflex and an attempt by the body to eliminate foreign objects from the respiratory tract. In practice, most coughs are caused by:

1. Some bacterial and viral infections in severe condition can lead to bronchitis.
2. Chronic cough results from lung disease for example, chronic bronchitis, emphysema and bronchiectasis.

PHYTUS® syrup is a combination of herbs formulated to help soothe cough which is associated with catarrh and other bronchial symptoms.
